DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Weaver (U.S. Pat. App. Pub. 2004/0116781).
3. Weaver disclosed a method and system comprising receiving, within a network, a plurality of disparate user metrics ("disparate historical behavior indicators", paragraph [0006], [0054], [0055], [0058], [0086]) from a metric sensor worn by the user ("RFID tags", paragraph [0076]; "child and user are wearing RFID or GPS wristbands", paragraph [0222]); saving the plurality of disparate user metrics ("working cache memory", paragraph [0054]); editing the subset of the saved disparate user metrics including receiving an editing instruction from a user identifying a user metric and deleting the user metric identified in the editing instruction ("editing the past behavior records includes receiving editing instructions from the user", paragraph [0008]); identifying a subset of the saved disparate user metrics that comprise a user metric pattern comprising mining the saved disparate user metrics ("identify a behavior pattern

for the user includes data mining", paragraph [0007], [0256]-[0268]), wherein a user metric pattern is comprised of a plurality of predetermined generic metrics not created specifically for the user and determined to comprise a metric pattern representing a metric state common to many users ("The term 'default behavior indicator' is used to describe behavior indicators that are not behavior indicators generated as a result of a user's behavior, but are generic behavior indicators representing behaviors common to many users", paragraph [0157]); storing the subset of the saved disparate user metrics as a user metric pattern ("behavior pattern record", paragraph [0179]), further comprising creating a metric list ("filtered behavior indicator records", paragraph [0074]); and associating the metric list with a user metric pattern data structure ("behavior indicators are represented in data structures", paragraph [0158], [0198]); associating an action with the metric pattern comprising retrieving an action ID from an action database ("identifying an action to be taken in dependence upon a behavior pattern", paragraph [0097]), wherein the action is designed to administer devices to affect the user metric state defined by the metric pattern ("the LSS server is coupled for data communication with a computer", paragraph [0070]).

Response to Arguments

4. Applicant's arguments with respect to claim 1 have been considered but are moot in view of the new ground(s) of rejection. Examiner submits that the claimed invention is taught by the prior art of record as detailed in the above rejection under 35 U.S.C. 102(e).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
